Education

M.Sc. in Mathematical Modeling

Mar 2021 – Jun 2023

Fundação Getulio Vargas

Rio de Janeiro, Brazil

- Advisors: Jorge Poco (FGV) and Marcos M. Raimundo (University of Campinas)
- Dissertation: Multi-objective Optimization in Machine Learning - A Systematic Review

B.Sc. in Applied Mathematics

Feb 2017 – Dec 2020

Fundação Getulio Vargas

Rio de Janeiro, Brazil

- Advisors: Jorge Poco (FGV) and Marcos M. Raimundo (University of Campinas)
- Bachelor's dissertation: Application of multi-objective optimization in machine learning problems to decrease discrimination

Publications

Guardieiro, V., M. Raimundo, M., and Poco, J. (2023). "Enforcing fairness using ensemble of diverse Pareto-optimal models". *Data Mining and Knowledge Discovery*.
<https://doi.org/10.1007/s10618-023-00922-y>

Guardieiro, V., M. Raimundo, M., and Poco, J. (2022). "Analyzing the Equity of the Brazilian National High School Exam by Validating the Item Response Theory's Invariance". *Proceedings of the 15th International Conference on Educational Data Mining*. <https://doi.org/10.5281/zenodo.6852946>

Guardieiro, V. and Poco, J. (2021). "Exploring counterfactual antecedents to reduce criminality in Rio de Janeiro" (Project report). School of Applied Mathematics, Fundação Getulio Vargas.

Research Experience

Research Scientist

Oct 2023 – Now

New York University

New York, US

- Research on Topological Data Analysis for Machine Learning explainability at the Visualization Imaging and Data Analysis Center (VIDA) with Professor Claudio Silva

Visiting Researcher

Jan 2023 – Apr 2023

New York University

New York, US

- Research on Topological Data Analysis for Machine Learning explainability at the Visualization Imaging and Data Analysis Center (VIDA) with Professor Claudio Silva

Undergraduate Research Assistant

2017 – 2020

Fundação Getulio Vargas

Rio de Janeiro, Brazil

- Worked with Waze data, developing a clustering algorithm for interval time-spatial structures. Advised by Jorge Poco
- Studied Natural Language Processing, contributing to databases such as Open Multilingual Wordnet (OMW) and Suggested Upper Merged Ontology (SUMO). Advised by Alexandre Rademaker
- Elaboration of the Consumer Price Index - Web (IPC-Web) for the Brazilian Institute of Economics (IBRE). Advised by Renato Rocha Souza

Other Experience

Teaching Assistant

2017, 2021 – 2022

Fundação Getúlio Vargas

Rio de Janeiro, Brazil

- Disciplines from the B.Sc. in Applied Mathematics and the B.Sc. in Data Science: Machine Learning (2022/1 and 2022/2), Continuous Optimization (2022/2), Optimization for Data Science (2022/2), Statistical Inference (2021/2), and Introduction to Computing (2018/1)

Data Science Intern/Data Scientist

May 2020 – Jul 2021

Gabriel Tecnologia

Rio de Janeiro, Brazil

- Gabriel is a startup that develops technology focused on public security
- I developed computer vision object detection, classification, and tracking models for the automatic detection of anomalies in security camera videos

IT Intern

Jan 2020 – Apr 2020

BTG Pactual

Rio de Janeiro, Brazil

- BTG Pactual is the biggest investment bank in Latin America
- I developed dashboards, visualizations, and metrics for internal IT products

Mathematical Modelling Intern

Jan 2019 – Sep 2019

PSR - Energy Consulting and Analytics

Rio de Janeiro, Brazil

- PSR is a global provider of technological solutions in the areas of electricity and natural gas (E&G)
- I developed optimization programs for maintenance scheduling in thermoelectric and hydroelectric plants

Awards & Scholarships

Coordination for the Improvement of Higher Education Personnel (CAPES)

M.Sc. Scholarship

Mar 2021 – Feb 2023

FGV's Center for the Development of Mathematics and Science (CDMC)

B.Sc. Scholarship

2017 – 2020

Brazilian Mathematical Olympiad of Public Schools (OBMEP)

One gold medal, two silver medals, and three bronze medals

2011 – 2016

Jovens Gênio Algar (JoGAR) - Coding Marathon

First place in the advanced category (2016), third place (2015), and fourth place (2014)

2014 – 2016

Specialized Skills

Programming Languages: Python, Julia, MATLAB, R, C, C++

Languages: English (TOEFL 112/120), Portuguese (Native)
